

Concept Note

<i>Section 1: Overview of response</i>	
Project Title	Emergency Response to Floods in West Bengal, Bihar and Assam.
Location	India West Bengal State, Malda district Bihar state, Darbhanga , Kishanganj districts Assam state, Barpeta district
Project start date	28 th August, 2017
Duration of project	2 months
Budget (USD)	USD 340,249
Sector(s)	<input checked="" type="checkbox"/> Shelter / <input checked="" type="checkbox"/> Food Security NFIs <input type="checkbox"/> Health / <input type="checkbox"/> Protection/Psychosocial Nutrition <input checked="" type="checkbox"/> WASH <input type="checkbox"/> Education <input type="checkbox"/> Early recovery / <input type="checkbox"/> Unconditional Cash Livelihoods
Forum	ACT India Forum
Requesting members	Church's Auxiliary for Social Action (CASA) and Lutheran World Service India Trust (LWSIT)
Local partners	<ol style="list-style-type: none"> 1. Rajadhi Community Health Service Society (RCHSS) in West Bengal 2. RAHAT-Rapid Action For Human Advancement Tradition in Bihar 3. Anchalik Gram Unnayan Parishad(AGUP) in Assam 4. Samajik Shaikshanik Vikash Kendra (SSVK) in Bihar
Impact (overall objective)	Provision of relief assistance to address the survival needs of flood affected people in these three states.
Target beneficiaries	The proposed relief programme will make special efforts to be inclusive in its approach and give priority to the excluded communities. Priority will be given to the most vulnerable sections of the affected people such as the marginalized and excluded communities (including dalits ¹), Women headed households, people with disabilities, and children. Disaggregated data will be provided

¹"Dalit" is a term for the members of lower castes in India.

	later in the coming appeal.
Expected outcomes	<ul style="list-style-type: none"> A. Flood affected people will be able to meet their needs of Food for at least 15-20 days. B. Flood affected people will be able to meet their most urgent shelter / NFIs needs . C. Flood affected women and female adolescent will be able to meet hygiene needs
Expected outputs	<ul style="list-style-type: none"> A.1 8,000 flood affected households received the food items in these three states i.e. (2,000-West Bengal, 4,000-Bihar and 2,000-Assam) B.1 8,000 flood affected households received the Non Food items in these three states i.e. (2,000-West Bengal, 4,000-Bihar and 2,000-Assam) C.1 2,000 flood affected women & female adolescent received Dignity/ Hygiene Kits
Main activities	<ul style="list-style-type: none"> A.1.1 Distribution of Dry Rations B.1.1 Distribution of Tarpaulin Sheets B.1.2 Distribution of Plastic Mats C.1.1 Distribution of Dignity/Hygiene Kits

Section 2: Narrative Summary

Background

Assam

The current floods in Assam have been termed the worst since 1998. The third wave of floods has claimed 67 lives so far in Assam. The total number of deaths in this year's flood-related incidents has gone up to 151 in the state. Incessant rains leading to floods have wreaked havoc in 25 of the 32 districts of Assam. In Morigaon district, which has been hit hardest, 521,000 people have been marooned while 467,000 people are affected in Barpeta district.

Heavy rain over the past few days has worsened the flood situation in the state with eight rivers flowing above the danger level, inundating densely populated regions and affecting humans, cattle and crops alike. Over 118,000 hectares of farm land are under water, while large swathes of agricultural land covering nearly four lakh hectares are still submerged. Kaziranga National Park which is home to a large population of rhinos, elephants, tigers, wild buffalos and eastern swamp deer also bore the brunt of disaster as at least 107 animals, including seven rhinos, died in the floods.

Bihar

The number of dead in the devastating floods in Bihar has gone up to 253 as the situation worsened with more areas getting affected. Around 12.6 million people are facing the deluge in 18 districts of the state. Heavy rainfall in the catchment areas of Nepal has worsened the already grim situation in the worst-hit Araria district. The situation will remain grim for the couple of days as the Central Water Commission has forecasted light to moderate rainfall in parts of northern Bihar for a few days.

According to the Disaster Management Department, 421,000 people have been shifted to 1,358 relief camps in different parts of Bihar. The worst affected areas are Sitamarhi, West Champaran, Katihar, East Champaran, Madhubani, Supaul, Madhepura, Kishanganj, Araria, Purnea and Katihar where the water have reached to alarming level. Reports claim that the major rivers in Bihar - Koshi, Mahananda, Gandak, Bagmati and Ganga -

have breached banks due to excessive rains.

Train services continued to be hit due to floods. An East Central Railways statement said the Guwahati Express ended its journey at Patna itself. A total of 28 National Disaster Response Force teams comprising 1,152 personnel are rendering services in the marooned areas with the help of 118 boats. More teams of the National Disaster Response Force (NDRF) are being airlifted from Pune to Patna. A total of 16 teams of the State Disaster Response Force comprising 446 personnel are helping people in the flood hit areas with 92 boats. Seven Army teams with 2,228 personnel are assisting relief and rescue operation with the help of 280 boats, a state Disaster Management Department release said. The Special Secretary in the Disaster Management Department said 1,765 community kitchens are catering to 344,000 people in several flood-hit areas.

North Bengal

Northern districts of West Bengal are reeling under heavy rains and unprecedented floods since July 21 with the state's disaster management department reporting that the disaster has so far claimed 55 lives and affected 5.5 million people in north Bengal districts - Jalpaiguri, Alipurduar, South Dinajpur, North Dinajpur, Malda and Cooch Behar.

While some have died due to snake bites, the others drowned in the floods. The railway service in north Bengal and northeast India remains suspended as the railway tracks were inundated at several places.

Humanitarian Needs	Capacity to Respond
<u>Assam</u> 521,000 people have been marooned in 25 districts while 467,000 people are affected in Barpeta district.	Church's Auxiliary for Social Action (CASA) is the social action arm of the 24 Protestant and Orthodox churches in India. CASA is mandated to work for the poor and the marginalized, irrespective of any political, religious and caste consideration. CASA today is operational in 22 states, including five states in North-east India, in approximately 5,000 villages. In addition CASA supports and accompanies around 400 NGOs working on different issues throughout the country. CASA continues to respond to 60-70 small and medium disasters annually and also responds comprehensively to major emergencies with an enhanced perspective in its strategies of integrating a long-term understanding of the causes and consequences.
<u>Bihar</u> 12.6 million people are in 18 districts of the state. According to the Disaster Management Department, 421,000 people have been shifted to 1,358 relief camps in different parts of Bihar and 1,765 community kitchens are catering to 344,000 people in several flood-hit areas. Food, temporary shelter, WASH and livelihood restoration measures are very much essential as unmet needs among flood affected households.	CASA's strengths and added capacity emerge from its direct relationship with the vulnerable communities especially the dalits, tribals, women and others, the village/cluster level Disaster Mitigation Task forces built up over a period of time in vulnerable regions of the country and also with its accompaniment of a large number of NGOs and their forums and networks operational throughout the country.
Specific needs identified: <ol style="list-style-type: none">1. <u>Food Security: dry rations kits</u> To sustain themselves, the flood affected people will need dry rations as it will put them in the path of recovery.2. <u>NFIs: Household articles</u> Most of the affected families have lost household articles and are therefore deprived of basic necessities such as clothing, blankets, utensils and other articles of daily use.3. <u>Temporary Shelter: plastic Mats</u> Thousands of people were shifted to the road side and are in make-shift shelters. They were also in need of temporary shelter to protect them from wind and rain and also to provide the required privacy for women and adolescent	Considering the large geographical area of India,

<p>girls in the family.</p> <p>North Bengal</p> <p>5.5 million people in north Bengal districts - Jalpaiguri, Alipurduar, South Dinajpur, North Dinajpur, Malda and Cooch Behar.</p> <p>In these three states the flood has damaged many houses and household materials including the valuables and agricultural crops besides causing small scale human and cattle causalities. It has also caused immense suffering and pain for the marooned people as they remain cut off for days and nights together.</p> <p>Due to waterlogging people are living in the road side and are still in need of Food and Shelter.</p> <p>Specific needs identified:</p> <ol style="list-style-type: none"> 4. <u>Food Security: dry rations kits</u> <p>To sustain themselves, the flood affected people will need dry rations as it will put them in the path of recovery.</p> <ol style="list-style-type: none"> 5. <u>NFIs: Household articles</u> <p>Most of the affected families have lost household articles and are therefore deprived of basic necessities such as clothing, blankets, utensils and other articles of daily use.</p> <ol style="list-style-type: none"> 6. <u>Temporary Shelter: Plastic Mats</u> <p>Thousands of people were shifted to the road side and are in make-shift shelters. They were also in need of temporary shelter to protect them from wind and rain and also to provide the required privacy for women and adolescent girls in the family.</p>	<p>the most important element of CASA's strategy is the decentralisation of certain aspects of disaster preparedness through the identification and training of local institution counterparts equipped to play key roles in our emergency programmes. The focal areas of our pre-disaster preparedness plan are:</p> <ul style="list-style-type: none"> • The nation-wide network of Church and secular organisations that partner with CASA in disaster response which enable CASA to reach out to affected communities at even the most remote locations. • Pre-stocking of relief material and logistical backup. • The presence of trained staff in 21 CASA offices throughout the country who can play a backstopping/accompaniment role and also respond directly where required. <p>CASA staff from our West Bengal, Bihar and Assam sectors office and the Zonal Office at Kolkata who have wide experience in responding to emergency situations and the requisite sectoral expertise will be responsible for implementation of the programme. This initial response is planned based on the data and information collected from secondary sources, such as government authorities and local partners.</p> <p>Lutheran World Service India (LWSI), as a country program of Lutheran World Federation/ Department for World Service (LWF/DWS), Geneva started its operations to respond to the immediate need of the refugees of Bangladesh Independence war in the year 1974. Later, at the request of Government of India, it extended its area of operation to different states of the country both in humanitarian response and development programs. However, LWSIT got registered as a National NGO in India under Indian Trust Act 1882 in the year 2008 and continued its journey serving the people those are suffering from various disasters either human-made or natural. LWSI/LWSIT has responded to all the major disasters in the country as Pan India program and also extended technical support in humanitarian response, CBDP and CBDRR program to its network members too such as Myanmar, Nepal, Bangladesh, etc. Thus, since last 43 years, LWSI/LWSIT has gained experience and implementing</p>
---	---

	<p>humanitarian response projects almost every year in the country.</p> <p>With wealth of experience in the field of humanitarian response, DRR and Development program, staffs of LWSIT are well equipped with good understanding of the program and implemented several projects in the past. Hence, existing staff members of the organization possess highest degree of accountability to implement the humanitarian response program with greater efficiency and ensure effectiveness of the program. As such, experienced staff currently working in several projects of LWSIT will be pulled out and deploy them to Bihar for implanting the program.</p> <p>Necessary logistics such as vehicles, equipment and other accessories are ready to use them in the project apart from pulling human resources from different projects.</p>
--	--

Proposed response

Does the proposed response honour ACT's commitment to Child Safeguarding? Yes No

Activities proposed under this emergency intervention, responding to specific needs:

1. Food Security: Dry Ration Kits

To sustain themselves, the flood affected people will need dry rations as it will put them in the path of recovery. The proposed dry ration kit will meet the food needs of the reference community for a period of 15/20 days based on the family size in these three states.

8,000 dry ration kits will be provided to affected households in three states i.e. West Bengal, Bihar and Assam (each dry ration kit consisting of 15 kgs of rice, 2 kgs pulses, 1 kg salt, 1 litre refined oil, 200 gm pkt. Chilli powder, 200 gm pkt turmeric powder).

2. Temporary Shelter and NFIs: Tarpaulins and Plastic Mats

Thousands of people were shifted to the road side and are in make-shift shelters. They were also in need of temporary shelter to protect them from wind and rain and also to provide the required privacy for women and adolescent girls in the family.

8,000 Tarpaulins of 18'x24' will be provided to the affected families, which will serve as an immediate temporary shelter for the families who have lost almost everything in the flood waters. These sheets will also provide the women with much needed privacy during the crisis period in these three states.

8,000 plastic mats of 5' x 7' will be provided to affected households who have lost almost everything in the flood waters, which will help them to sleep and sit at least as the entire house was full of mud.

LWSIT will distribute high quality HDPE Tarpaulin Sheets to the families affected by high flood whose houses are completely damaged due to flooding. These tarpaulin sheets will be useful and can ensure the better living conditions among families currently living exposed to the elements. Until the water recedes, families will continue to live under temporary shelter. When they go back to their homes, they can take the tarpaulin sheets with them for future use. This will act as family level preparedness for such disasters in future.

3. WASH

To ensure that, 2,000 flood affected women and female adolescent protect their dignity and maintain personal hygiene practices as well as prevent further diseases

Women and adolescent girls of 2,000 persons are provided with dignity/ hygiene kits in order to enable them to live more comfortably and protect them from any further ailments.

LWSIT will distribute dignity/ hygiene kits at the household level for the women and adolescent girls those are affected by floods and have challenge to maintain their personal hygiene. Such kits will also be used by other members of the family in order to cleansing themselves and cleaning their clothes to ensure hygienic practices.

Coordination

The programmes of CASA are undertaken with the close co-operation of the Government at various levels. Particularly in disaster situations, it is ensured that areas of operations are decided in consultation with the Government in order to avoid duplication of relief efforts. Such coordination ensures that various efforts complement each other. CASA is also a member of Sphere India which is a coalition of Humanitarian agencies working towards adherence to the Sphere standards and better coordination and networking during response. CASA is also members of Inter Agency Groups promoted by Sphere India which are responsible for coordination efforts at the State and District level in 12 vulnerable States of India. The ACT India forum is also of strategic value in the coordination of the relief work of its implementing partners.

CASA's Headquarters is in touch with resource partners. Contacts with the local groups and CBOs in the proposed areas are already strong. CASA will involve the regional/local NGOs in co-coordinating the relief intervention. The purpose would be to maintain transparencies and harmony in the process of selection, implementation and accounting to avoid any possible duplication. This programme will be conducted with the approval and co-operation of the state authorities and district officials.

LWSIT will coordinate and work closely with flood affected households those are taking shelter at various relief camps, or at the embankment and at road sites. As is the practice, LWSIT will seek approval from government as well as local authorities and implementation will be carried out with co-operation of the state authorities and district officials. LWSIT will coordinate with its local partner in the district of Darbhanga.

CASA and LWSIT are maintaining regular contact with local administrations for proper coordination and effective implementation of the proposed programme. The coordination at the state level is with the State office of CASA in West Bengal, Bihar and Assam . CASA and LWSIT are in regular touch with ACT India Forum members in order to maintain effective coordination in the crisis phase. CASA and LWSIT will also coordinate closely with other ACT Implementing partners.

LWSIT Implementation plan:

Components	Gantt Chart 25 th August – 24 th October 2017 (8 Weeks)							
	1 st Week	2 nd Week	3 rd Week	4 th Week	5 th Week	6 th Week	7 th Week	8 th Week

Monitoring and evaluation

CASA and LWSIT would ensure the active involvement and participation of the beneficiaries in the implementation, monitoring and evaluation of the project activities. The programme will be constantly monitored for ensuring that it is in progress along with the planned framework, and also in order to fine-tune it as and when required, based on field responses.

A consolidated report will be submitted on completion of the intervention. At the end of the programme, review would be conducted to assess the impact of the programme and document learning's for future planning.

Section 3: Budget Summary

Annex 2 – Logical Framework

Logical Framework			
IMPACT			
Provision of relief assistance will address many of the survival needs of the flood affected people in three states i.e. West Bengal, Bihar and Assam.			
OUTCOME(S)	Objectively verifiable indicators	Source of verification	Assumptions/risks
A. Flood affected people will be able to meet their needs of Food for at least 15-20 days in these three states. B.
