

## Kenya

Nairobi, 11<sup>th</sup> November 2019**SITUATION**

Kenya has experienced heavy rains in the recent months across the country, affecting over 144,000 people in 25 counties.

According to preliminary findings by the Kenya Red Cross Society, the floods have claimed the lives of 48 persons and left at least 17,000 people displaced, according to the Government's National Disaster Operation Centre (NDOC), including affecting 200,000 refugees living in settlements in Dadaab. The most affected counties include Turkana, Wajir, Mandera, and Marsabit and Tana River, causing massive displacement of families, sheep, goats, cattle and camel. Villages and farms are submerged, exposing affected communities to lack of food, shelter safe water and water borne diseases.

Crucial livelihoods are destroyed of undetermined acreage of farmland and livestock, according to NDOC, which will heavily affect the food security situation across the country.

With the current weather forecasts, which predicts heavy rains until the end of November, the NDOC expects these numbers to rise.

**NEEDS**

The floods have put the affected counties in a state of crisis. The flood affected persons find themselves in a desperate situation, with many unmet vital humanitarian needs such as access to: food, basic shelter and non-food items, basic health services and facilities, safe drinking water as well as sanitation and hygiene infrastructure, livelihood activities, protection services

<input checked="" type="checkbox"/>	sufficient food
<input checked="" type="checkbox"/>	safe shelter and basic non-food items
<input checked="" type="checkbox"/>	basic health services and facilities
<input checked="" type="checkbox"/>	safe drinking water, as well as sanitation and hygiene infrastructure
<input checked="" type="checkbox"/>	livelihood activities
<input checked="" type="checkbox"/>	protection services
<input type="checkbox"/>	adequate nutrition

The dire situation is further compounded for the flood-affected people with vulnerabilities. Children, pregnant and lactating women, people with disabilities; more specifically for the elderly who cannot easily relocate in flooded waters to safety or to access to essential services. There is a pressing necessity to provide immediate assistance to minimize loss of life and to ensure that the needs of the most vulnerable are covered first.

**STAKEHOLDERS**

The following national and international entities are present and doing their best to respond to the crisis<sup>1</sup>:
