	Description	Indicator	Target	Implementing Organisation	Means of Verification	Frequency of measurement
Strategic Objective	To contribute to reduced Ebola community transmission risk in targeted provinces of Ituri, North Kivu and South Kivu through multisectoral assistance (Preventions and controls of infections, Communications on risk and community Engagement, support for livelihoods and protection/SGBV).			ALL		
Intermediate outcome	Targeted communities in Ituri, North Kivu, and South Kivu demonstrate improved knowledge, increased trust, and adoption of appropriate Ebola prevention and hygiene practices within a safe, dignified, and protective environment.	Percentage of respondents who say they trust and practice preventive measures against Ebola (proper handwashing with soap or hydroalcoholic gel, avoiding crowds, avoiding handling corpses, etc.).	70%	BOAD,ECC,CO PAD	Quick KAP survey,Interviews with beneficiaries.	Beginning and end of project
Outcome 1	Strengthen community engagement and trust through communications about the risks of Ebola virus Disease, in collaboration with local leaders, religious leaders, and community liaisons in the provinces of Ituri, North Kivu, and South Kivu by September 30, 2026.	Percentage of respondents who say they trust preventive measures against Ebola (proper handwashing with soap or hydroalcoholic gel, avoiding crowds, avoiding handling corpses, etc.).	70%	BOAD,ECC,CO PAD	Quick KAP survey,Interviews with beneficiaries.	Beginning and end of project
Output 1.1	Frontline health staff, including nurses are trained on Ebola prevention measures, Preventions and controls of infections-related messaging and safe alert / referral messaging.	Number of frontline health staff trained(disaggregated by sex).	202	BOAD,ECC,CO PAD	Attendance lists; training reports.	Monthly
Output 1.2	Community leaders, community health workers (relais communautaires) and religious leaders are trained to support trusted Ebola prevention messaging, community sensitisation, and efforts to address rumours, misinformation and stigma.	Number of community leaders, community health workers and religious leaders trained(disaggregated by sex).	418	BOAD,ECC,CO PAD	Attendance lists; training reports.	Monthly
Output 1.3	Community members are reached through Ebola prevention awareness sessions delivered primarily by trained community leaders, community health workers and religious leaders, with technical support from trained clinical staff / frontline health workers where appropriate.	Number of people directly reached through awareness sessions(disaggregated by sex).	58371	BOAD,ECC,CO PAD	CHW activity monitoring sheets; session reports; visibility / IEC material distribution records.	Monthly
Output 1.4	Wider at-risk populations are reached through public health messaging on Ebola via local radio stations and other campaign channels.	Estimated number of people indirectly reached through radio and mass messaging(disaggregated by sex).	785760	BOAD,ECC,CO PAD	COPAD, BAOD, ECC/MERU public campaign reports; radio broadcast records; campaign monitoring reports.	Monthly
Outcome 2	Reduce community transmission of Ebola virus disease (EVD) in communities in Ituri Province, North Kivu, and South Kivu through the acquisition of knowledge and the adoption of preventive measures against Ebola virus disease by September 30, 2026.	Percentage of respondents who report taking preventive measures against Ebola (proper handwashing with soap or hydroalcoholic gel, avoiding crowds, avoiding handling corpses, etc.).	70%	BOAD,ECC,CO PAD	Quick KAP survey,Interviews with beneficiaries.	Beginning and end of project
Output 2.1	High-risk households in Ituri, North Kivu and South Kivu health zones receive hygiene kits to support practical Ebola prevention.	Number of high-risk households receiving hygiene kits((disaggregated by sex).	2400	BOAD,ECC,CO PAD	COPAD, BAOD, ECC/MERU distribution reports; distribution lists; PDM reports.	Monthly
Output 2.2	Vulnerable women and girls received feminine hygiene kits	Number of women and girls receiving feminine kits.	1000	BOAD,ECC,CO PAD	COPAD, BAOD, ECC/MERU distribution reports; distribution lists; PDM reports.	Monthly
Output 2.3	Handwashing stations are installed and operational in public places and transit areas in Mongbwalu, Bunia, Rwampara et Nyankunde,Karisimbi, Katwa,Bagira,Miti-Murhesa and Katana. health zones.	Number of handwashing stations installed and operational.	480	BOAD,ECC,CO PAD	Handover and installation certificates; monitoring reports; geo-referenced photos where feasible.	Monthly
Outcome 3	Household affected or at high-risk households received Multipurpose cash assistance to respond to their immediate needs in dignified manner and security.	%Household affected or at high-risk households received Multipurpose cash assistance to respond to their immediate needs in dignified manner and security.	70%	BOAD,COPAD	Interviews with beneficiaries, PDM reports.	Monthly
Output 3.1	Multipurpose cash distribution for households affected or at high-risk.	Numbers of vulnerables affected or high-risk households receiving multipurpose cash assistance(disaggregated by sex).	1550	BOAD,COPAD	Cash distribution list, Interviews with beneficiaries, PDM reports.	Monthly
Outcome 4	Vulnerable affected or at high-risk people especially Women and girls victims of gender based violence received psychosocial support.	Numbers of vulnerables affected or high-risk people especially women and girls victims of gender based violence who received psychosocial support in dignified manners and security.	980	BOAD,COPAD	COPAD, BAOD project reports, fields monitoring reports.	Monthly
Output 4.1	Psychosocial Assistant and religious leaders are trained on Preventives measures against VBG and psychosocial first aid in line with the protection/VBG guidelines	Number of Psychosocial Assistant and religious leaders who are trained Preventives measures against VBG and psychosocial first aid in line with the protection/VBG guidelines	238	BOAD,COPAD	COPAD, BAOD project reports, fields monitoring reports.	Monthly
Output 4.2	Vulnerable affected or at high-risk people especially Women and girls victims of gender based violence are referred for medical or legal assistance in dignified manner and security.	Number of Vulnerables affected or at high-risk people especially Women and girls victims of gender based violence are referred for medical in dignified manner and security	175	BOAD,COPAD	COPAD, BAOD project reports, fields monitoring reports.	Monthly
		Number of Vulnerables affected or at high-risk people especially Women and girls victims of gender based violence are referred for legal assistance in dignified manner and security	25	BOAD,COPAD	COPAD, BAOD project reports, fields monitoring reports.	Monthly
Accountability to affected People	Vulnerable persons raised complaints and feedbacks through appropriate and secure channels(disaggregated by type and sex)	Number of complaints and feedbacks channels set up (faces to faces,telephone,suggestions boxes,...)	3	BOAD,ECC,CO PAD	Feedbacks and complaints register,project	Monthly
		Number of complaints and feedbacks received (disaggregated by type and sex)			Feedbacks and complaints register,project	Monthly
		% of complaints received and closed	100%	BOAD,ECC,CO PAD	Feedbacks and complaints register,project	Monthly
