

Project Results Framework										
Project Title: ACI Response to Sudan Crisis: Integrated Food, WASH, Protection/GBV, and Livelihoods Support										
Project start date: 1st July 2020										
Project duration: 12 Months										
Strategic Objective	Description	Indicator	Target				Implementing Organisation	Segregation	Means of Verification	Frequency of measurement
			NCA	DCA	DKH	Overall				
Enhanced access to integrated multisectoral humanitarian assistance enables crisis-affected IDPs, refugees, returnees, and host communities in Gedaref, Khartoum, Kordofan and Darfur to reduce life-threatening risks and adopt safe and dignified coping strategies.										
Outcome 1	Crisis-affected communities demonstrate improved access to and use of equitable, safe, inclusive, and quality life-saving WASH services, contributing to reduced public health risks and improved dignity.	# of individuals in the target communities reached with comprehensive WASH services.	40891				NCA	Age and Gender	Household surveys (baseline, post-distribution, endline), WASH KAP Survey	Quarterly
Output 1.1	Targeted communities (Women, Men, Boys and Girls) have improved and equitable access to sufficient, safe, and reliable water for drinking and domestic use, reducing waterborne disease risks and supporting health and dignity	# of individuals having access to at least 10 - 15 litres of safe water per person per day within 500 metres of their dwelling.	14175				NCA	Age and Gender	Household Surveys, Water Trucking sheets, Water quality testing records, Water point functionality monitoring checklists, and end-line Community feedback and	Quarterly
Output 1.2	Targeted communities (Women, Men, Boys and Girls) have increased access to and use of safe, inclusive, and environmentally appropriate sanitation facilities, contributing to reduced public health risks and improved living conditions.	Proportion of women, men, girls and boys expressing satisfaction with the access and quality of the water supplied	70%				NCA	Age and Gender	Endline Survey	Bi Annual
		# of individuals reporting access to gender-segregated, safe, and functional sanitation facilities meeting minimum Sphere standards	3880				NCA	Age and Gender	Household survey, Desludging records	Quarterly
		% of beneficiaries satisfied with solid waste management services	70%				NCA	Age and Gender	Construction and HH Survey, Cleaning campaign Reports and FDG	Quarterly
Output 1.3	Targeted communities (Women, Men, Boys and Girls) adopt improved hygiene practices through access to hygiene items and targeted hygiene promotion, reducing disease transmission and supporting safe and dignified daily living.	% of targeted individuals satisfied with vector control activities	70%				NCA	Age and Gender	HH Survey, Cleaning Reports	Quarterly
		# of people reached with targeted and context-appropriate hygiene promotion activities	10000				NCA	Age and Gender	Hygiene promotion session attendance records (Door to Door, FDG and Drama)	Quarterly
		# of individuals reached with Hygiene Kits including soap	1900				NCA	Age and Gender	Hygiene Kits distribution List and PDM Report	Annual
Outcome 2	Women, girls, boys and men affected by crisis experience improved safety, psychosocial wellbeing, and access to survivor-centred GBV and protection services.	% of targeted individuals who demonstrate correctly 3 out of 5 critical handwashing practices with soap	70%				NCA	Age and Gender	Baseline, KAP Survey, Endline survey	Quarterly
		% of targeted individuals who report experiencing improved safety, psychosocial wellbeing	80%				NCA + DCA	Age and Gender	quarterly feedback surveys, safety assessment report, individual feedback	Annual
		% of individuals report assistance as safe, accessible, and participatory (quarterly perception survey)	80%				NCA + DCA	Age and Gender	quarterly feedback surveys, safety assessment report, individual feedback	Annual
Output 2.1	Access to survivor-centred GBV and MHPSG services strengthened.	% of GBV survivors who accessed survivor-centred GBV services reported satisfied with services	90%				NCA + DCA	Age and Gender	client feedback survey, GBVIMS report	Quarterly
		# of women men, girls and boys who received specialist and non-specialist MHPSG services	800	700	1,500		NCA + DCA	Age and Gender	Activity report, signed attendance list, photos	Quarterly
		# of WSSG established and operational that meet 100% of the Minimum Standards including staffing for Prevention and Response to GBV in Emergencies	1	2	3		NCA + DCA	N/A	WSSG assessment report, checklist, staffing plan	Quarterly
Output 2.2	Individuals with heightened protection risks receive tailored protection assistance and are linked to multisectoral support services.	# of women and girls receiving safe, confidential, GBV, individual case management and structured psychosocial support	84	166	250		NCA + DCA	Age and Gender	GBVIMS report, activity report, signed attendance list	Quarterly
		# of dignity kits distributed to survivors and highly vulnerable women/girls	250	250	500		NCA + DCA	Age and Gender	distribution plan, signed distribution list, photos, distribution reports	Quarterly
		# of community members reached with life-saving information sessions on protection risks, rights, and available referral pathways	2115	2115	4230		NCA + DCA	Age and Gender	awareness raising plan, activity report, activity photos, sample IEC materials	Quarterly
Output 2.3	Community capacity and engagement for GBV prevention and response enhanced.	# of community members including men, boys, girls and women engaged in GBV prevention awareness raising sessions	4230	4230	8460		NCA + DCA	Age and Gender	awareness raising plan, activity report, activity photos, sample IEC materials	Quarterly
		# of community structures (groups, networks) that are established and/or trained on GBV protection and supported with materials	5	5	10		NCA + DCA	Age and Gender	assessment of community groups, activity report, selection criteria, photos of groups/networks	Quarterly
		% of mobile contacts where GBV/protection risk identified receive documented referral to WSSG or specialist service	20	20	40		NCA + DCA	N/A	reports, list of contacts, referral forms completed, acknowledgement of receipt of referral forms	Quarterly
Output 2.4	service providers including Partners and frontline staff apply survivor-centred, accountable and risk-informed approaches to GBV and protection programming.	# of partners and front-line staff who are trained in GBV, and protections related service provision	80	40	120		NCA + DCA	N/A	attendance list, activity report, pre and post test	Quarterly
		% of referrals completed within 5 working days of initiation	80%				NCA + DCA	N/A	referral forms	Quarterly
		% GBV survivors and other at risk women and girls referred to the WSSG by FLS, WASH and other actors including community members.	40%				NCA + DCA	N/A	referral forms, reports	Quarterly
Outcome 3	Crisis-affected women, men and youth improve their income generation capacity and economic recovery through small business recovery.	# of staff trained on GBV, Protection and other survivor centred topics demonstrate increased knowledge in understanding topics and ability to apply those knowledge.	90%				NCA + DCA	N/A	pre and post test report, post training surveys, activity report	Quarterly
		# of individuals who received support in livelihoods, socio-economic inclusion and access to development program	#	#	#		NCA-DCA+DKH	Age and Gender	HH Register, Selected Beneficiary List and Distribution/Training Lists	Quarterly
		% of households with acceptable Food Consumption Score >35 (target: 65%)	70%				NCA-DCA+DKH	N/A	Endline survey and PDM	Quarterly
Output 3.1	Livelihood groups mobilised and capacitated for small business recovery	% of targeted female-headed households reporting that the livelihood inputs provided matched their self-assessed priority needs	#	#	1		NCA-DCA	N/A	HH Register, Selected Beneficiary List and Distribution/Training Lists	Quarterly
		# of HHs supported self-reporting increased community preparedness	#	8	3		NCA-DCA	N/A	HH Register, Selected Beneficiary List and Distribution/Training Lists	Quarterly
Output 3.2	Crisis-affected populations receive timely access to appropriate, life-saving cash transfers through HHs / Groups	# of livelihood Households/ groups receiving the one-off cash transfer according to agreed business plans	#	5	#	4	NCA-DCA+DKH	N/A	Cash Transfer records and PDM Report	Quarterly
